## SCRATCHED DAY AND NIGHT

"My scalp was covered with little pimples and I suffered tortures from the itching. I was scratching all day and night, and I could get no rest. I washed my head with hot water and Cutieura Soap and then applied the Cuticura Ointment as a dressing. One box of the ointment and one cake of Cuticura Soap cured me. Now my head is entirely clear and my hair is growing splendidly. I have used Cu-ticura Soap ever since, and shall never be without it. (signed) Ada C. Smith, 309 Grand St., Jersey City, N.J."

Discovery Made in Property of the Southern Pacific.

Special to The Tribun OGDEN, Utah, May 27.—The Southern Pawhose properties are situated about eight miles north of Ogden, today received word miles north of Ogden, today received word that native copper was encountered yesterday in the new tunned at a depth of fifty-eight feet. The discovery is in a crystallized form, but is so far from the surface that it is regarded as the genuine native copper and not the result of the deposition of a hydrous-oxide colution or organic matter, such as is so often the origin of native copper. The management had expected to drive its tunnel at least 200 feet before encountering values, and their occurrence at a nearer point is regarded as an indication of a vein whose presence had not been suspected, and which is nearer the surface.

Minister Russell was cabled a week ago at Bogota to come to Washington, not in connection with the Bowen-Leomis controversy, but to discuss with the authorities here his treatment of affairs at Caracas, with special reference to the asphalt controversy. It is not intended to take any action in this matter probably until Congress meets next fall, provided nothing happens in Venezuela to force an issue. The press advices from Caracas indicating that the resources of the law have not been exhausted and that an appeal has been granted to a higher court makes it the easier for the Government here to proceed in this leisurely fashion, it was explained at the War department.
